The ACCIS Annual Conference is Europe's premier event for professionals in credit information services. Initially, it began as a small gathering—an extension of the General Assembly—featuring a few external speakers.

The Conference is held annually in May or June, coinciding with the GA. As stipulated in the Articles of Association, the General Assembly must take place within the first half of the year.

Historically, the Conference has been hosted in various European locations

It attracts approximately 100 professionals, the vast majority of whom are ACCIS members. The audience is composed of selected high-level delegates from across the globe..

About one-third of the commercial attendees (excluding regulators, academics, etc.) are CEOs, one-quarter are C-level executives, and the remainder are senior and middle managers.
